# Mark Max ProContractor

## Graco's top of the line Electric Sprayers for AIRLESS spraying of Paints, Fire Retardants and Airless Plasters

PRO Contractor SERIES

### WORK SMARTER THANKS TO THE LATEST INNOVATIONS

- Keep the sprayer on the job site and out of the shop! The ProConnect² pump installation and removal system allows you to change the pump in seconds.
- Monitor the performance of your investment more easily – the LED display is bright and easy to read.
- Comfortable and time saving, the QuikReel™ hose reel allows you to save time and money.

Texture Applications

**MARK IV™ MAX PROCONTRACTOR - MARK V™ MAX PROCONTRACTOR**
**MARK VII™ MAX PROCONTRACTOR - MARK X™ MAX PROCONTRACTOR**

# Mark Max ProContractor

Top of the line in Electric Airless!

**It's for YOU, the smart professional, that Graco keeps reinventing spray equipment technology. Because we know you're looking for the latest innovations to help you finish jobs faster, with less fuss and fatigue.**

**The ProContractor Series** of our MARK MAX range include top of the line innovations, for top of the line professionals that aren't satisfied with "just" high quality technology, but demand more.

**Choose the right unit…**

The MARK IV MAX is the optimal unit for large painting jobs for the inside as well as the outside! Versatile in applications, it is well suited for fire retardants and even the occasional plaster job can be tackled with this sprayer.
Our well known MARK V MAX is a step up from that! Optimized for professionals that split their time between painting and plastering, and need the productive output this unit can deliver.
Delivering twice the performance of the MARK V MAX, the MARK X MAX ProContractor is strong enough to spray over 30.000 liters a year, and well equipped to handle the toughest airless plasters. Slightly too big for you?
Try the MARK VII MAX, you will be charmed by its price/performance ratio.

**… and go for the ProContractor Series for ultimate comfort and luxury!**
Have a look at the latest innovative features we added to the ProContractor Series of the MARK MAX range.
This is what distinguishes you from other professionals. This is where you save time and money. This is where you stand out.

QuikReel™

**QuikReel™ Integrated Hose Reel**
Work more comfortably and more efficiently. Roll out and up in a few seconds up to 90m hose - spray in a range of 180m without moving the unit, and get in, out and on to the next job site faster!

PRO CONNECT 2

**ProConnect²**
Keep the sprayer on the job site and out of the shop! The ProConnect² pump installation and removal system allows you to change the pump in seconds, saving valuable time.

SMARTCONTROL™

**SmartControl™ 3.0 with LED display**
Protect and monitor your investment more easily, with the bright and easy to read LED display that shows the job/lifetime/liter counter and the self diagnostics provided by the new and improved "brains" of the unit - the SmartControl 3.0.

**FastFlush™**
Save time cleaning your unit! The FastFlush pump cleaning system cleans the unit up to four times faster using only half the water.

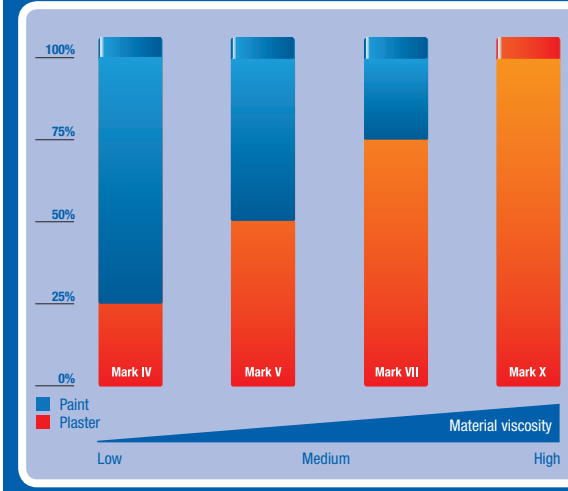
## Materials & Applications

The MARK MAX PROCONTRACTOR is a real multiple purpose unit for large painting jobs for the inside as well as the outside! Your top of the line buddy sprays airless plasters and most common paints.

The MARK MAX PROCONTRACTOR sprays latex, emusions, acrylics, epoxies, blockfillers, fire retardants, intumescents and most common airless plasters. It even has enough performance to deliver the necessary flow for 2 people spraying simultaneously.

All units equipped with 30 METER hose

Whether you're spraying paint or texture, Graco understands your needs and knows that it's all about production rate and flow. No matter the type and size of the job, there is a Mark sprayer in the ProContractor Series that will deliver the flow you want, to achieve the production rate you need!



**On-Board Toolbox**
Convenient storage container keeps tools, tips, filters and accessories where you need them most.

**Endurance™ Pump**
Graco's proven and reliable piston pump technology with LongLife-V packings. QuickAccess™ intake valve to easily clean or clear debris. Spring loaded for better pump efficiency.

## PLASTER SYSTEM

Extend your Mark Max sprayer to a fully complete plaster system with the 90 liter hopper and bag roller if you spray materials delivered in bags.

*SPRAY 700 m² in a day…*
… with a 2 man crew. Use the container suction set, pumping directly from a 500 or 1000 liter container delivered by your material supplier ... Extremely effective, especially if all built into a van or trailer.

## ! TIP

For improved pump performance when spraying paint, replace the ceramic ball in the lower pump with the SST ball (delivered free with the unit).

www.graco.com

## WatchDog™ Pump Protection System

The WatchDog Pump Protection System automatically shuts down the pump when paint runs out or if the hose is damaged.

- Prevents dry pumping damage
